

Project Profile

2004 Plano Balloon Festival

The 25th annual Plano Balloon Festival was a great event, with 100 hot air balloons from all over the country, nearly 100,000 people through the gates, and top-name entertainment during the three days of the festival.

Stage Right has provided staging, lighting, and sound for the Festival in previous years, and was proud to be a part of the 25th anniversary.

Stage Right arrived two days before the Festival started to make sure our stage and Tomcat rooftop was set up and ready for lighting and audio load in. Sound and Lighting set up without a hitch, and we were able to present Festival attendees with the quality they have come to expect from the professionals at Stage Right.

We look forward to doing the 2005 Plano Balloon Festival - until then, check the Stage Right website for more Project Profiles on our shows!

Gear List

Rooftop: Tomcat
Stage: Staging Concepts
FOH: Midas console, Nexo Cabinets
Monitors: SLICE wedges
