

Project Profile

"Beyond the Rainbow" Benefiting the Children's Cancer Fund

One of the most exclusive events in Dallas is the Children's Cancer Fund benefit, attracting some of the city's most elite members. Now in its 17th year, the "Beyond the Rainbow" event prestigious guest list included Troy Aikman, Roger Stauback, media favorites Clarice Tinsley and Steve Eager, and Christian recording artist Natalie Grant.

Stage Right was selected as the sole vendor for the production of this event, including full audio and lighting production. The biggest selling point for Stage Right, however, is our "Living Wallpaper" product. Stage Right's creative staff was able to take a drawing made by a cancer survivor, digitalize it, and make it come to life using computer animation. This image was then projected onto custom made screens for use as a dynamic back-drop at the event, along with moving rainbows, and a custom three-minute interactive animated video roll produced exclusively for Natalie Grant.

The end result was a flawlessly produced show with an emotionally moving theme, as well as a unique stage design that was the talk of the show. Stage Right welcomes the opportunity to provide production for the 2006 Children's Cancer Fund benefit, and we look forward to adding this client to our list of annual repeat customers!

Gear List

Full concert audio with 120K conventional lighting, "Living Wallpaper" projection using digital manipulation and animation of existing artwork.

Client Comments

"Thank you for everything. It was flawless, I am hoping that all who witnessed will call Stage Right in the future."

-Rhonda Sargent Chambers
