

Project Profile

President George W. Bush

One of the most difficult events for any major hotel is the hosting of a visiting dignitary. Important political, religious, and corporate figures can be a logistics nightmare, incorporating higher levels of security and major stresses on banquet services divisions. Possibly the most difficult group to host in any city is the President of the United States and the First Family.

The Wyndham Anatole Hotel in Dallas, Texas is known for hosting important figures. Even so, hosting the President is a daunting task, and when the hotel learned of the Presidential plans for an appearance in the Chantilly Ballroom, staging needs immediately came to mind. "We knew we would need something that could support a lot of weight, be extremely stable, and still be as aesthetically pleasing as possible. While not as glamorous as some of the aspects of the Presidential appearance, it's vital that this piece of the event is done well and on time - a staging mistake can potentially be a huge disaster."

From fashion shows to music events like SXSW, Stage Right is known to provide the best staging available for any size or configuration possible. After President Bush and the First Family had left the hotel, Stage Right employees were busy disassembling the stage that the President had spoken from. "Another perfect show - nobody even noticed we were here!"

Gear List

Staging: Fourteen sections of 4x8 aluminum decking with 1" ply/poly surface, includes aluminum locator plates and load-bearing aluminum bays. Additional press stage and camera risers.

Client Comments

"Stage Right is known widely to hotel and banquet insiders for providing the best staging in the State of Texas."

Events are tricky, bring a friend.
